

# FRUIT TREES

**PORTLAND AVE NURSERY**  
1409 E 59TH ST, TACOMA, WA, 98404

Unless classified "self-fertile," fruit trees require a **pollinator** (a tree of the same fruit, but different variety) in order to produce fruit. Self-fertile trees do not require a pollinator, but they may be more productive with another variety present.

NAME	DESCRIPTION
<b>APPLES</b>	
Braeburn	Med - Sweet/tart - Golden Red fruit harvested in Oct. Good Keeper
Cosmic Crisp	Lg - Sweet/Tart - Red fruit harvested in Early Oct. Non-browning. Disease resistant.
